A self addressed stamped envelope should be inclosed with the card to insure the return to the absentee of a registration certificate.

The Crow Wing County Public Safety Association, a branch subject to the control of the state commission, was organized this afternoon at the Chamber of Commerce, pursuant to the call sent out by R. R. Wise, appointed director of Crow Wing county by Governor J. A. Burnquist.

OFFICERS ELECTED

President—R. R. Wise.
Vice President—S. R. Adair.
Secretary—Fred T. Lincoln.
Treasurer—G. P. O'Brien.

R. R. Wise called the meeting to order and explained the call sent out by the State Commission of Public Safety. The various states had been organized in the first place from plans promulgated by President Woodrow Wilson, former President Wm. H. Taft and Judge Parker and governors of each state had taken active part in the organization. The governors in turn had appointed directors to represent each county. The Minnesota State commission consisted of seven members and the legislature had defined its powers. Mr. Wise made a patriotic address and was given earnest attention and applauded to the echo.

After the election and the adoption of the articles of organization President R. R. Wise named as an advisory council, W. H. Gemmell, N. H. Ingersoll, Edward Crust, Henry I. Cohen, Dr. J. A. Thabes, Col. A. J. Halsted, W. C. Cobb, Dr. R. A. Belse, R. M. Sheets, E. A. Colquhoun of Brainerd.

The ladies present held a caucus and selected as their members of the advisory council Mrs. Henry Theviot, Mrs. J. A. Thabes and Miss Anne Mahlum.

W. H. Gemmell brought up the request of the government for an industrial survey to ascertain the number of workers available for the quartermaster's department. His motion carried for the appointment of a committee of three to take the census.

President Wise spoke of the mobilization of the telegraphers in former wars and that the men, even those who had not handled a key for years and were out of active service, would be on hand to do their bit. Mr. Wise is a telegrapher who saw much service in his youth and was an expert at the key.

Col. Freeman Thorp, of Hubert, when called upon by the chair, said the great need of the day was food for the allies.

"If this war is lost," said Col. Thorp, "it will only be on account of the lack of food."

He asserted the government had millions of acres of unused land and if all were planted with wheat, a billion bushels of that cereal would be added to the general crop. It was too late this season to do anything with that land, but it could be cultivated and gotten ready for the crop of 1918.

E. A. Colquhoun, county agricultural agent, praised the farmers of Crow Wing county for their entry in the lists of greater production. The

Beware the Cut Worm

Beware the cutworm.
Starve him or poison him.
This is the advice to Minnesota gar-
deners from experts at the University
farm school.

According to a bulletin issued to-
day, the cutworm is invading the war
gardens of the state and unless de-
feated at once will cause heavy loss.
The bulletin says cutworms can be
starved by careful cultivation or
poisoned by using a mixture of bran,
Paris green and molasses. This bait
should be scattered over the garden
late in the afternoon.

Do You Neglect Your Machinery?

The machinery of the body needs to be well oiled, kept in good condition just as the automobile, steam engine or bicycle. Why should the Human neglect his own machinery more than that of his horse or his engine? Yet most people do neglect themselves. To clean the system at least once a week is to practice preventive measures. You will escape many ills and clear up the coated tongue, the yellow complexion, the dull headache, the lazy liver, if you will take a pleasant laxative made up of the May-apple, juice of the leaves of aloes, root of jalap, and called Pleasant Pellets. You can obtain at almost any drug store in this country these vegetable pellets in vials for 25c—simply ask for Dr. Pierce's Pleasant Pellets. There can be no counterfeit if they have the Dr. R. V. Pierce stamp upon them.

Minneapolis, Minn.—"It was hard for me to get around on account of feeling run-down. Often when walking I was suddenly attacked with dizzy spells and terrific headaches. My side pained me so much of the time that it was impossible for me to take a deep breath without suffering misery from the pain. I had incessant backache and throbbing pains through the loins. Upon arising in the morning my limbs were so stiff I could hardly get about the house. I was told of Anuric, discovered by Dr. Pierce, so immediately started using it and was soon relieved of the trouble."—Mrs. MAY F. KEYES, 1905 St. Anthony Avenue.

St. Paul, Minn.—"When I felt that I should have something to build me up and give me strength, I started taking Dr. Pierce's Favorite Prescription. It seems to be just what I need as I am feeling better than I have for years."—Mrs. STELLA WILLIAMS, 161 Pleasant St.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then back hurts and bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

WHY IT SUCCEEDS

Because it's for One Thing Only and Brainerd People Appreciate This

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Brainerd evidence to prove their worth.

Charles Ellison, 512 S. Quince St., Brainerd, says: "My kidneys were disordered for several years and seemed to be gradually getting worse. I was taken with such awful pains in my back that I had to go to bed. Medicine patched me up somewhat and I got out in a few weeks, but I continued to suffer severely. I finally got Doan's Kidney Pills at H. P. Dunn's Drug Store and a few boxes put me in good shape."

Lasting Benefit—Over five years later, Mr. Ellison said: "I can still recommend Doan's Kidney Pills. The benefit I got has lasted."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv't.

We're all Dressed up and no Place to Go

BY MARGARET MASON,
(Written for the United Press)

"We're all dressed up and no place to go,"

Said the slip covered chairs as they sat in a row.

New York, June 2—"Do you think my new spring slip makes me look too stout?" inquired the davenport anxiously of her friend the wing chair. "Not at all," responded the wing, gracefully. "Just a bit portly, you know. I feel that mine is a perfect fit but I am rather disappointed about my Dutch blouse. Humans are all wearing their skirts so short this season and this pleated blouse is so long it doesn't show a bit of my well turned leg."

"Let me settle this discussion for you," said the settle in the ingle nook. "You all look simply stunning in your new summer slip covers and I only wish some one could slip one over on me. Since I am too hard to fit (for I'm all hard wood, you know) I'll have to be content to settle down here and watch you all being featured in 'Under Cover' this season. I only hope your charming new cretonne clothes will give you added strength to support any weight and you won't mind being much sat upon. And may the gay flowers and birds on your slip covers keep spring in your hearts as well as springs in your seats."

"Thanks for your compliments, couched so elegantly," said the couch "on behalf of myself and all the other furniture I thank you." "Yes, it's mighty sweet of you," said the whole suite of furniture in unison. "And now it is time to shut up," said the desk sulking the action to the word.

You are likely to hear such a line of conversation if you sneak up on your furniture any night after the stroke of twelve. That is of course if you have followed the fashion and had slip covers of cretonne, chintz or English linen made for all your upholstered pieces.

In the old summer days we used to be content to swathe our furniture in shapeless slip covers of tan striped linen as ugly as it was serviceable. Nowadays slip covers are form fitting, as it were. They are made of the most delightfully designed and tinted cretonnes and linens to match the summer draperies and hangings. They are finished around the bottom with pleated ruffles called Dutch flounces. Snappers are used to fasten them snugly and neatly on to the most difficult shaped articles of furniture so that each and every slip cover, if it is well made, fits as perfectly as your own new tailor made.

The beauty of it is that you can slip off your arm chair's slip and have it laundered as easily as you slip off your small daughter's slip and then you can slip it right back again. It certainly is a perfect snap as well as a perfect fit with the new snapper fastenings.

Naturally imported linens and cretonnes are almost prohibitive in price this year but our domestic output is most creditable and copies of old English linens in soft colorings and even a good imitation of the linen fabrics are offered in the cotton cretonnes at prices reasonable enough to make possible their use to cover all the furniture, cushions and hangings in one's living room or bedroom. Of course if you want to go the limit, covers for the Victrola and piano, the bookcases and desk and tables as well as for the upholstered pieces may be indulged in and the effect is most charming.

Chinese designs are very popular and birds of Paradise, pheasants, peacocks and love birds have come home to roost on almost all your easy chairs. Old rose or yellow shades are very good this year for background colorings and putty or French grey are also most effective with brilliant hued designs outlined in black. While all over designs are most practical for slip cover use set patterns of baskets of flowers, urn shaped vases, flower filled, or cages filled with birds work up most artistically.

In England where no easy chair is without its flounce trimmed, gayly figured slip they often leave them on all the year round. Now that our slip covers have become such works of art, such things of beauty and such perfect fits we are going to be loathe to pull them off in the winter time ourselves. For to summarize the whole subject of covers they certainly summarize a whole room.

Soon no one will be able to take this seat without realizing that "There's many a slip 'twixt the chair and the hip."

SHARPS AND FLATS

(BY FIDD)

The potato which until recently was a most plebian member of the necessities of life, has risen to such an extent that it cannot be considered absurd if compared to music which is just as necessary. The life of the potato is governed by season, and while not "in season" but in the earth developing is its most important period. The musical "season" closed with the last Symphony concert and the time for development is at hand.

If we do not double our effort between now and fall, how can we expect to appear as well then as now. The coming year will bring more difficult work as it will be expected of us, and we cannot afford to disappoint the many people who support us and make it possible to continue. School days are over but a little study during vacation will not only keep the mind alert but will be more of a pleasure than a task.

Pupils who attend school very often have to take their lessons after school hours but during vacation more convenient time can be arranged. More time can be allowed for a lesson during which the study of harmony could be introduced, questions answered, difficulties overcome and a moment or two to study the pupil as an individual.

Edwin Lee, who is a member of the graduating class of the Brainerd high school, is an example to many another students, for while attending school equipping himself for "lives little fray." He has also accomplished wonders in a musical way. Three years ago, a year after he had entered high school, he, with no musical training whatsoever, became a pupil of Mr. Bergh. At present he is principal of the second violin section of the Symphony orchestra, obligato violinist of the high school orchestra, second bass of the high school male quartette, bass drummer of the Brainerd City band, violinist of the Blue Ribbon orchestra, as well as being a teacher of the Bergh Violin School. Needless to say, Mr. Lee ably acquits himself in each and every undertaking, and while practically at the very beginning of his career, much credit is due him.

The first band concert of the season will take place Wednesday evening, June 6, at Gregory park.

One of the most important announcements that has appeared in this column for months, is that of the arrival of Tony Kellogg, harpist. It puts the finishing touch to our Symphony orchestra. It makes possible the organization of an orchestra for concert and dance purposes at summer resorts and places where a piano is not to be obtained.

Mr. Kellogg is associated with the Bergh School of Music and will accept a limited number of pupils.

It will not be necessary to possess a harp to avail yourself of this opportunity as Mr. Kellogg's instrument will be at the disposal of his pupils at allotted times.

Mrs. Melba Cooke, the efficient pianist of the Empress theatre, will be at liberty the first four days of each week during the summer to instruct a limited number of pupils. Mrs. Cooke has exceptional success with children beginning the study. Her apartments are located in the Mahlum block.

Edwin Harris Bergh has been in Little Falls the past few days arranging for a class of pupils and an orchestra similar to those in Brainerd and Staples. The rivalry which exists between these three towns will cease in one respect and another year will find them united—musically.

Franklin Rice of Staples, is now mixing with what was once a "Royal Italian Orchestra" in a grain elevator at Frazee—and the tones of his violin mingle nightly with the accordion, guitar and sweet southern voices of our musical "alleys."

Earl Pilgrim has returned from Taconite and will resume his studies in person. For the past six months he has received his lessons through the mail, which indicates that Mr. Pilgrim's desire is to become a finished musician.

Bastian's 14-piece orchestra of Little Falls, played for the grand opening of the large roof garden at Randall last night. Mr. Bastian announced that his orchestra will appear there regularly during the summer.

Local 517, of the American Federation of Musicians, will hold sessions in the future at their new home on

the third floor of the Iron Exchange building.

Evelyn Lyddon, who has been associated with many musicales of the past season, will be missed by many when she leaves for her new home in Tacoma.

Alice Johnstone, who has been seriously ill, is recovering rapidly and will soon be able to resume her musical studies.

FIRST JUNE WEDDINGS

Judge J. T. Sanborn at the Court House Officiates for Both Couples

The first June weddings were solemnized in the court house before Judge J. T. Sanborn who tied the knots yesterday. Victor Hokkanen and Miss Jennie Nikkola, both of Cuyuna, were first married and the second couple acted as witnesses. The second couple married were Henry Karanen and Miss Naimi Porkka, both of Cuyuna, and the first newly weds acted as their witnesses.

A marriage license taken out June 1 was by Frederick J. Elpp of Austin and Miss Opal May Cunningham of Deerwood. Mr. Elpp has enlisted in the army. The wedding will take place soon in Deerwood.

Barbeau-Witham

Thursday morning at the church of Our Lady of Victory in Fergus Falls, at 9 o'clock, occurred the marriage of Miss Marie Barbeau to Charles H. Witham of Brainerd. Father Rauch performed the ceremony in the presence of friends and relatives.

Miss Marie Gilioly was the bridesmaid and H. N. Miller acted as best man.

The bride was becomingly gowned in a white traveling suit, touched with Spanish lace and wore a white hat to match. Her corsage bouquet consisted of sweet peas and maiden hair fern. The bridesmaid looked charming in a dainty white marquette frock, trimmed with lace and ribbon and wore a delicate lace hat, her bouquet also was sweet peas and ferns. Miss Margaret Diedrich presided at the organ.

After the church ceremony a sumptuous wedding dinner was partaken of at the home of the bride's mother, Mrs. Rosalie Barbeau. The happy couple left on the afternoon train for Brainerd where they will be at home to friends after August 1st.

Out of town guests were Mr. and Mrs. Ben Barbeau of Brainerd, Mr. and Mrs. Wm. Barbeau of St. Paul, Miss Mary Pufahl of Sauk Centre, and Miss Tillie Schmidt of Greenwald, Minn., and Mrs. Walburga Kreitger of Wehringen am Bodensee.

The bride was an esteemed member of the St. Agnes Sodality and Tuesday evening the members gave a miscellaneous shower for her at her home where she was pleasantly remembered with pretty and useful wedding gifts.

May all the good wishes showered upon the bride and groom today be fulfilled in their future.

LISTING THE VOLUNTEERS

Tuesday, June 5, is Registration Day. Every man who has reached the age of 21 on that day, and has not reached the age of 31, is required to appear at his usual voting place and give his name, age, residence, business and special qualifications or disqualifications for military service. From the data so furnished, the government will group the millions registered according to their fitness and capacity, and assign each to his appropriate branch of war service.

Some of the men will be called almost immediately to make up the first 500,000. They will constitute but a small part of the whole, probably no more than one out of 20. They will be chosen by lot out of the total number regarded as fit military material. There will be another 500,000 taken later. Whether there will be any further calls cannot be told at this time. It depends on the extent of the need and the duration of the war. The calls may eventually amount to 2,000,000 or 3,000,000. Even so, they will take a comparatively small minority of the nations available manpower.

By far the greater number of men who register will be assigned, on the government lists, to farming, manufacturing, mining, transportation and other branches of the economic organization back of the army. And every man who cheerfully goes forward to offer himself for whatever use his country can best make of him will be a good and faithful citizen-soldier, whether his work shall be at home or on the battlefield.

"Selective draft" the process has been called. But "draft" or "conscription" is not a good name for it. There is no real compulsion about this service, such as prevails in countries where the few govern the many. There is no "Prussianism." The nation is not drafted for war. The nation, as President Wilson has said, "has volunteered in mass." We are simply listing the volunteers.

DRAGGING RUSSIA DOWN

Russia has been struggling to get upon her feet again but the obstacles that the young giant faces are tremendous and the fight to keep the old shackles that were shaken off from being riveted on again will necessarily be fierce.

The greatest obstacle is Germany. Prussianism, which formerly reigned in Russia under the name of Czarism, is determined that its big neighbor, with his incalculable possibilities, shall not be free. The Kaiser wants no troublesome democracy next door to fill his own people with non-sensical notions of liberty.

There is no longer anything to fear from Russian ambition. The lust of conquest passed with the Romanoffs. But to the Hohenzollerns, militarists and junkers of Prussia there is far more peril in a Russian people desiring to live their own life. Free ideals are more aggressive than

ambitious emperors. They overleap all boundaries. They are more menacing than armies against royalty, tyranny, aristocracy, militarism and all the vast, entrenched system of error, violence and crime represented today by the German government.

And so Germany is bent on destroying the new Russia. She varies her methods to suit the moment. In the first days of the revolution she sent an invading army swarming across the frontier, hostile emissaries in the guise of friends, to foment trouble, arouse discontent, set faction against faction and lead the revolution to its own destruction. The campaign succeeded so well that hundreds of thousands of German troops were withdrawn from the eastern front to fight the British and French. Russia was being beaten without soldiers.

In a telegram from Secretary of the Interior Franklin A. Lane to Gov. Burnquist that official gives assurances that there will be no fuel shortage in the northwest, which will be relieving news, and was in answer to an appeal to the president from the state executive on the coal supply situation. The secretary tells the governor that the worst thing that can happen is to become alarmed now with regard to rush orders and hoarding, and adds that "you will find that at the end of the season there will be no delinquency in coal for the northwest." In the meantime the railroad and warehouse commission are advising consumers to place coal orders at once that deliveries may be made when coal is available and avoid congestion at docks and on railroads.

Kaiser Wilhelm is mad, not in the sense that some would take it although some of the acts would indicate that he might come under the head of "war mad," but real angry. For the first time his speeches include a vilification of America in his usual bitter comments against the enemies of Prussia. "Whom the gods would destroy they first make mad" may have an application in this case.

TO BUILD AUTOMOBILE HIGHWAYS IN CHINA

Will Connect Shanghai With Woosung, a Deep Water Port.

Arrangements have been made for the construction of a road from Shanghai to Woosung, the deep water port at the point where the Hwangpu discharges into the Yangtze.

As all vessels beyond a certain draft with cargo for Shanghai have to discharge at Woosung, convenient connections between the two are important. A railroad has been in operation for twenty years, but a road passable for motor vehicles has been lacking.

The distance is between ten and fourteen miles, according to the route selected. By the arrangement now made the Hwangpu conservancy board, which is in charge of the maintenance of navigation on the river and receives the proceeds of a customs and surtax levied for that purpose, is to loan from its funds to the public works office of Shanghai the sum of \$100,000 Mexican (\$23,632 United States currency), repayable in forty annual installments without interest. The remainder of the total cost of the work, estimated at \$80,000 Mexican, is to be borne by the conservancy board itself.

It is understood that immediate action on the project has been delayed by an investigation to assure officials that the proposed work will not impair the embankment of the Hwangpu.

The construction of the road will provide an important addition to the very small number of highways in China outside the cities which are available for motor vehicles. The number, however, is slowly increasing.

A concession by an American company for a road in the environs of Peking was obtained recently, and plans are announced also for the construction of a road from Dairen, in the territory on the Kwangtung peninsula leased by Japan, to the summer resort at Hoshigaura or Star Beach. An appropriation of 100,000 yen (\$53,300) has been made for the purpose by the local administration. The road will be forty-eight feet wide and be reserved for rubber tired vehicles.

TWO ATTACKS IN VERDUN REGION

German Crown Prince Assaults French Lines.

OCCUPY ADVANCED TRENCHES

Teutons Retire From Most of the Captured Positions Under French Counter Attacks—Artillery Firing in the Ypres Section of Belgium Is Increasing.

London, June 2.—Continuing his isolated attacks against the French lines the German crown prince threw his troops forward north of Molin de Laffaux and against the battle scarred positions on Hill 304, on the Verdun front.

The forces of the crown prince in their efforts to break the French line near Molin de Laffaux gained a foothold in some advanced trenches and, while French counter attacks forced them to retire from most of the elements, they still maintain tenure of a portion of them.

French artillery fire checked the German efforts against Hill 304, the Germans suffering heavy losses. There has been increased artillery firing in the Ypres sector in Belgium. Aside from several small raids and outpost engagements there has been nothing doing except artillery fighting on the Arras battle front.

On the other fronts there have been no changes. Austrian attacks in the Vodic area of the Julian front north of Gorizia were repulsed by the Italians, and Vienna reports the failure of Italian attempts in the same region.

NEUTRAL SHIPS CAN SAIL

Germany Allows Them to Leave English Ports July 1.

London, June 2.—The German admiralty has promised a safe passage through the barred zone to all neutral vessels in English ports on July 1, provided they carry distinctive signs and follow indicated routes, according to a Reuter dispatch from Berlin by way of Amsterdam.

The announcement reiterates that England has prevented the sailing of neutral vessels from British ports on dates fixed by the German admiralty as safe, thus hampering the supply of food to neutral countries.

RUSSIAN INTERNAL TROUBLES GROWING

Petrograd, June 2.—The fateful decision of the workmen and soldiers' delegates to assume control of Kronstadt, the great fortress which defends Petrograd, was carried by a vote of 210 to 40, with eight of the delegates abstaining from voting.

It is announced by the workmen and soldiers' delegates that henceforth the relations of Kronstadt with Petrograd and the remainder of Russia will be only through the intermediary of the Petrograd branch of the delegates.

The local workmen and soldiers' council at Kronstadt announces that it has taken in its hands the effective power of Kronstadt, that it does not recognize the provisional government and that it has removed all the government's representatives.

The minister of justice has notified his colleagues of this development and on their instructions has communicated with the Kronstadt council through the Petrograd council with a view to inducing the Kronstadt council to revoke its orders.

SHOES FOR ARMY AND NAVY

Contracts Are Awarded Totalling Almost \$17,000,000.

Washington, June 2.—Contracts for 3,450,000 pairs of shoes for the army and navy were awarded through the National Defense Council. Delivery is to be completed within eight months and the average price per pair will be \$4.85.

The contracts, awarded on competitive bids, were distributed among twenty-seven firms.

The army will get 2,600,000 pairs of the shoes and the navy \$50,000. The contracts represent the largest shoe purchase ever made by the government, their total value reaching nearly \$17,000,000.

CHILDREN MURDER FATHER

Explain Slaying by Saying "He Was Mean to Them."

Durant, Okla., June 2.—R. L. Wilkerson, farmer, was shot and killed while he lay asleep in his home four miles north of Benningham.

Two of his children—a daughter, aged ten, and a son, aged eight—were brought here in custody of a constable and are being held for investigation.

Mr. Wilkerson's head was torn to pieces by the discharge of a shotgun. "Because he was mean to us all the time" is all the children will say when asked to explain their father's death.

Former Governor M. H. Glynn of New York and former Mayor Fitzgerald of Boston proposed to the senate finance committee at Washington a war tax of \$100 on each alien in the United States who has not expressed intention to become an American citizen. They said such a tax would raise \$300,000,000. Aliens who enlisted in the armed forces of the United States would be exempt.

LEADING SOCIALIST LEAVES HIS PARTY

New York, June 2.—Asserting that the Socialist party "is probably the greatest single obstacle to the progress of socialism in America," and has been "committed to a program essentially unneutral, un-American and pro-German," John Spargo, Socialist writer and member of the national executive committee of the Socialist party, announced that he had resigned from the party.

Mr. Spargo declared that the Socialist party as a whole "has been, with notable uniformity, on the German side" and "through the utterances and actions of the national committee and our press, the party has been placed in the position of favoring precisely the things desired by the German foreign office and of opposing the things the German foreign office opposed."

Mr. Spargo intimated he will join with others to form a new Socialist organization.

LIBERTY LOAN ONLY FIRST

New York Banker Says Others Are Due to Follow.

New York, June 2.—The Liberty loan of \$2,000,000,000 is "but the start," Frank A. Vanderlip, president of the National City bank, said in speaking before the Merchants' association on the necessity of employers assisting employees to subscribe to the loan.

"We are going to need sums of money such as we never dreamed of in any undertaking in which we have ever engaged," he declared.

The sacrifices of the war, Mr. Vanderlip asserted, will prove a boon for the country in the long run, if they teach the American people much needed lessons in thrift and national investment.

The war must be fought, he said, on the savings of the future.

SITUATION WELL IN HAND

Officials Look for Little Trouble on Registration Day.

Washington, June 2.—Department of justice officials are of the opinion that the situation with respect to the draft registration Tuesday is well in hand, that there will be no really serious disturbances and that the nation will find that outbreaks have been sporadic and not the result of a general feeling against the law.

It was pointed out that more than 10,000,000 men are required to register and that it would be surprising, indeed, if such a day were to pass off without incident.

Attorney General Gregory's orders have caused the arrest of about thirty persons in connection with anti-draft propaganda. Only a few more are expected before Tuesday.

IN EFFORT TO CUT COST

Sweeping Order Regulates Sale of Meat in England.

London, June 2.—Lord Devonport, food controller, has issued an elaborate order regulating the sale and prices of meat, including live animals. The order prohibits speculative resales, eliminates jobbing transactions and stipulates what profits shall be permitted to retailers.

There is much speculation as to the successor of Lord Devonport, who now retires.

The latest unofficial slate gives the controllership to Major Sir Arthur Lee, director of general food production.

crying need was not more acres for cultivation, but more men for farm labor.

S. R. Adair, county treasurer, when called on for remarks, said he had cultivated his lake shore property in odd hours and had put in ten acres of beans.

Of the delegates present there was a good representation from the townships of the county, all of whom took a deep interest in the proceedings and promised their hearty support to every measure intended to aid the government.

The convention was fairly under way at 3 o'clock and at the time of going to press of the Dispatch had not completed its first session.

The hearty response of the delegates and their evident desire to aid President Wise in all measures named is an indication of the entire success of the Crow Wing county section.

GIVE COWS PLENTY OF WATER.

(National Crop Improvement Service.)
When cows are in full milk they require plenty of water. It is stated authoritatively that cows in full flow of milk will consume 50 per cent more water than when dry.

Poor feed sells to poor feeders.

Only that part of the feed that digest is of use—the rest is mostly fertilizer material.

No protein—no casein; no casein—no milk; not enough protein—not so much milk; also not enough feed—not so much food.

Foods with the highest protein and highest analysis are usually but not always the cheapest to use.

Cows won't make milk out of water and air.

(National Crop Improvement Service.)
Starchy feeds like corn and oats often sell as high as protein feeds because of the demand for them for horses and other work animals. Starchy feeds are also good to fatten steers. That is why they are often as high in price as dairy feeds, which are strong in protein.

South Long Lake Sluggers Score 14, Daggett Brook Gets 2

The Daggett Brook team was defeated on Decoration Day by the South Long Lake Sluggers to the tune of 14 to 2.

L. Caughey, the phenomenal pitcher, who pitched for the Sluggers, broke all records by striking out 23 batters. Not one man of the Daggett Brook team reached first base after the first inning in which they received their only two scores.

One feature of the game was a lightning double play made by Stedfeld and Busbey. Three pitchers of good talent were used against the S. L. Sluggers, but none were effective throughout the entire game.

One of the Daggett Brook pitchers is known as Joe Bullet Bush, the second, and he also was pulled out of the box.

BRAINERD'S ODDEST STORIES OF TODAY

 Another calamity! Brainerd gardeners report some worm is making a raid on the succulent tops of early peas, sweet peas and the rest of the pea family.

 Judge J. T. Sanborn wears a becoming smile on his mobile face today. He started the June wedding drive with two pair yesterday, thus eclipsing all the ministerial men of the city.

STEPHENS SIX "The Car With The Punch"

Comfort

Send the Stephens Six over the roughest road and lounge back in the deep, roomy seats. You will have visions of fireside chair comfort, such as you enjoy on a winter night when you light your after-dinner cigar or pipe and surrender to the fascination of blazing logs and idleness.

Such ease is yours because the springs of the Stephens Six are extra long, totaling 91 1-2 inches in length for a car with a wheelbase of 115 inches; because the car hugs the road and has a low center of gravity; because the leather-upholstered seats have the room and depth of a luxurious divan.

Stephens Six Comfort Is a Twofold Quality

The easy riding feature of the Stephens Six is not the only kind of comfort that appeals to the motorist. In the Stephens Six is incorporated that comfort which comes from a feeling of security, in the knowledge that the car is strongly built of carefully selected materials and that there are no weak parts that may give way.

Stamina--Power--Beauty

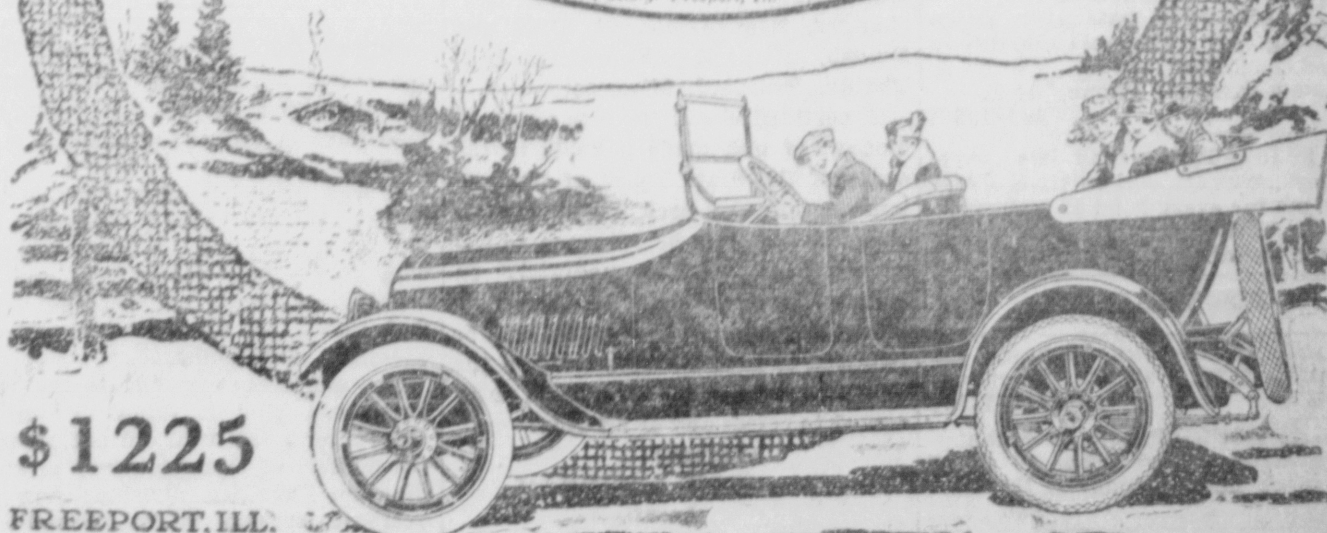

In either five-passenger touring car or roadster, each of which sells for \$1225, you will find these qualities. The Stephens Six has enduring strength. It was built to perpetuate a reputation for quality that the maker has enjoyed for more than half a century. The six-cylinder motor is powerful, flexible, quiet and economical. The graceful streamline body is the work of expert carriage builders.

May we give you a demonstration and make you a Stephens Six enthusiast?

CANADA WILL FORM COALITION MINISTRY

(By United Press)

Ottawa, Ont., June 2.—Premier Borden called upon Sir Wilfrid Laurier, the opposition leader, and asked his assistance in forming a coalition ministry.

It was reported upon reliable authority that the premier offered to allow Sir Wilfrid to name half the members of the new government and to grant the Liberals authority equal to that given the Conservatives on all questions of administration.

The condition attached to the proposal was that if voluntary enlistment after a fair trial did not provide the number of men necessary to keep the five Canadian divisions now in overseas service up to strength a measure of compulsory service should be put into effect.

LIBERTY BONDS PROVE POPULAR

St. Paul People Take \$11,000,000 in Four Days.

QUOTA IS NEARLY DOUBLED

Amount Subscribed Means Forty-four Dollars for Every Man, Woman and Child in the Minnesota Capital. Special Committees Will Still Continue to Solicit.

St. Paul, June 2.—St. Paul set a Liberty loan mark for the nation and put it good and high.

When the fourth day of the city's campaign closed the total amount of subscriptions stood at an even \$11,000,000.

Gathering momentum as it progressed the campaign swept St. Paul into first rank among American cities Friday with subscriptions of almost \$4,000,000.

Bringing its big drive for the Liberty loan to a climax in a big dinner and mass meeting at the Masonic temple the civilian auxiliary reported another \$1,000,000 day and heard the announcement that St. Paul would receive credit for a subscription of \$2,500,000 from the Northern Pacific.

To round out a perfect day C. H. Bigelow, chairman of the Liberty loan committee, announced that he would underwrite \$63,750 and St. Paul had raised an even \$11,000,000 for the Liberty loan.

Eleven million dollars in four days is the record set by the St. Paul Liberty Loan association and the civilian auxiliary.

At the rate of almost \$3,000,000 a day the city has responded to the nation's appeal for dollars. This means that St. Paul has subscribed \$44 for every man, woman and child within its limits, practically doubling its quota of \$6,000,000.

And the end is not yet. Special committees will follow up the work of the auxiliary and the flying squadron.

The subscriptions received exceeded by \$1,000,000 the total received in the Minneapolis campaign, while the per capita subscription exceeded that of the Mill City by 50 per cent.

To aid the nation through the Liberty loan the city has pledged a sum equal to 10 per cent of its total bank deposits.

RURAL PUBLIC APATHETIC

Country Banks Report Slow Sale of Liberty Bonds.

New York, June 2.—Evidence that the Liberty loan, while sure to be successful, is not being taken up by the public and probably will remain on the hands of the banks, has been gathered through a canvass of 12,000 country district banks by war loan committees of the American Bankers' association, it was announced here.

The situation was asserted to be "very urgent" and the association announced it had sent out a second circular letter urging the banks to redouble their efforts to distribute the bonds to the public.

Buy Liberty Bonds Today

THE SHARE OF EVERY AMERICAN FAMILY IS \$100

Buy Your Share Now

THAT America may strike the winning blows for the liberty of the world your government calls today for financial volunteers. Today is Liberty Loan Day. The Liberty Loan of \$2,000,000,000 being sold to the 100,000,000 people of the United States means that the share of each individual is \$20, or the equivalent of \$100 a family.

In asking you to subscribe to the Liberty Loan your Government does not ask you to spend your money. Instead it holds out an opportunity to save and invest. It offers bonds backed by all of the resources of the richest nation in the world—bonds which can be immediately turned into cash—which pays 3½% interest—and which are exempt from all taxes except those on estates and inheritances.

Every cent of this money will be spent in this country for supplies for our soldiers and for materials for the Allies. This will help your business.

WHAT LIBERTY BONDS ARE

Liberty bonds are United States Government Bonds secured by all the resources of the Federal Government. They are issued in multiples of \$50 and bear interest at the rate of 3½% per annum, payable semi-annually December 15 and June 15 of each year. These bonds mature in 30 years and may be redeemed by the Government in 15 years. Should the Government put out any future issues at an interest rate higher than 3½% before the close of the war, the "Liberty Loan" will immediately become convertible into higher rate bonds.

REMEMBER BELGIUM

Our country—and that means every one in our country—is at war today for the protection of our nation. This Loan is the

first step in this war. If you do not respond now and the Imperial German Government should win this war the fate of your home would be the fate of the homes of Belgium.

Today you share in the prosperity of your nation—the richest in the world. If the iron heel of the Hohenzollerns should conquer, you would have no choice as to what would be done with your property. It would be taken from you by force.

DO YOUR SHARE

Every man, woman and child should feel it his duty to subscribe something to the Liberty Loan. If you cannot buy an entire bond yourself, club together with your family and purchase several bonds. You can pay for these bonds in full or in five installments as follows:

Payment for a	\$50 Bond	\$100 Bond	\$200 Bond	\$1000 Bond
On application	\$1.00	\$2.00	\$10.00	\$20.00
On June 28th	9.00	18.00	90.00	180.00
On July 30th	10.00	20.00	100.00	200.00
On August 15th	15.00	30.00	150.00	300.00
On August 30th	15.00	30.00	150.00	300.00

Plus accrued interest to be settled with final payment August 30th.

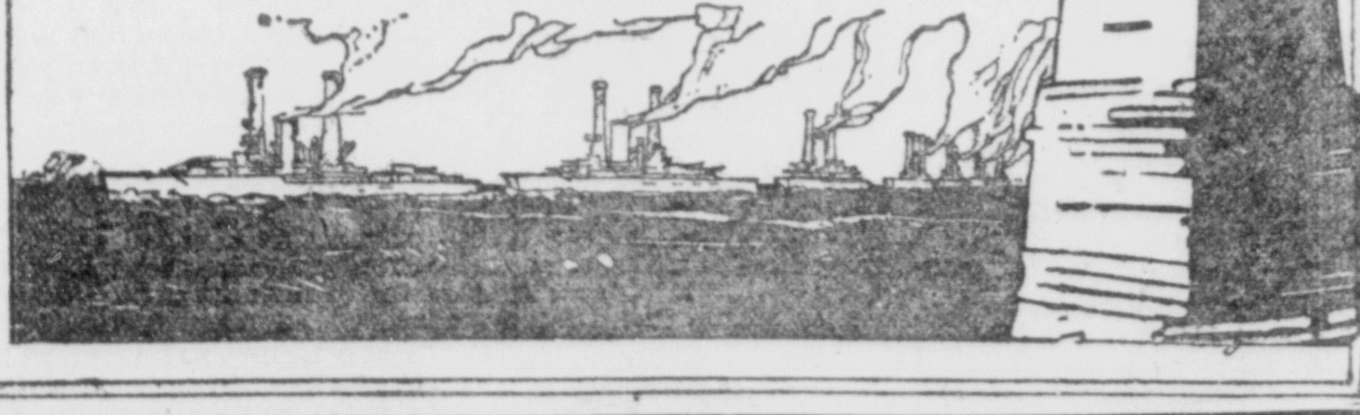

Don't wait for anyone to ask you to buy a bond. Go at once to your nearest bank or post office and subscribe. This bond issue is your chance to volunteer. If this money is not raised by bonds, your government will be forced to draft it in the form of taxes.

TODAY IS LIBERTY LOAN DAY

As you lay your flowers on the graves of those who in the past have given their blood for your country, declare that you too will give "the last full measure of devotion,"—that you will prove yourself worthy of their sacrifice by today doing your share for Liberty, and subscribing to this bond issue.
